

INDEX TO VOLUME 44

Subject entries are made for all articles. Author entries are made for original articles. Book Reviews and Obituaries are indexed under these headings in alphabetical order under the letters B and O, respectively.

- Abnormalities and Deformities:** See also Monsters; and under names of organs and regions, as Appendix; Bones; Eyes; Genitourinary Tract; Heart; Respiratory Tract; Skin; etc.
maternal infections and congenital malformations, 437
mechanisms of abnormal development; causes of abnormal development in embryo, 398
mechanisms of abnormal development; embryonic development of malformations, 495
mechanisms of abnormal development; post-natal developmental abnormalities, 648
- Abscess:** See under names of organs and regions
- Acid, osmic:** improved method for handling photolabile liquids, 646
- Adenocanthoma;** mixed squamous cell carcinoma and papillary adenocarcinoma (adenocanthoma) of thyroid gland, 192
of esophagus; report of 1 case with consideration of tumor's resemblance to so-called salivary gland tumor, 385
- Adenocarcinoma;** mixed squamous cell carcinoma and papillary adenocarcinoma (adenocanthoma) of thyroid gland, 192
- Adenohypophysis:** See Pituitary Body
- Adenoma;** parathyroid adenoma with generalized metastatic calcification, 628
- Adipose Tissue:** See Fat
- Adrenal Preparations;** correlations of biochemical and histologic changes in adrenal cortex, 126
- Adrenals;** correlations of biochemical and histologic changes in adrenal cortex, 126
limitation of spreading factor in injured rats, 356
medullary hyperplasia of adrenal gland in aged Wistar albino and gray Norway rats, 71
some factors influencing brown degeneration of adrenal gland in Swiss albino mouse, 269
- Age, Old:** See Old Age
- polycystic disease of kidney;** review, 34
- Altschul, R.:** Heterotopic blood formation in experimental cholesterol arteriosclerosis, 282
- American Board of Pathology;** examination for certification in pathology, 205
- Amidines;** toxicity of "stilbamidine"; study of effects of chronic intoxication, 287
- Amyloidosis** in relation to multiple myeloma, 231
- Anaphylaxis and Allergy:** See Schwartzman Phenomenon
- Anemia, focal;** leukocytosis and fatty infiltration of liver (so-called septic liver spots), 336
- Aneurysm;** cystic medionecrosis of aorta, 485
- Anoxia:** See Oxygen, deficiency
- Antell, G. J.:** Arteriosclerosis in infancy, 82; correction, 438
- Antibodies:** See Antigens and Antibodies
- Antigens and Antibodies:** See also Immunity; and under specific antigens and reactions
pathogenesis of glomerulonephritis and rheumatic fever; in vivo activation of tissue antigens as result of streptococcal infection and consecutive formation of auto-antibodies, 119
reticuloendothelial cells reacting to toxic antigens and to infection, 635
studies on pathogenesis of rheumatic fever; cardiac lesions produced in rats by means of autoantibodies to heart and connective tissue, 13
studies on pathogenesis of rheumatic fever; experimental production of autoantibodies to heart, skeletal muscle and connective tissue, 1
- Antiserum:** See under names of various diseases
- Aorta, cystic medionecrosis of,** 485
- Sclerosis:** See Arteriosclerosis
- Apparatus:** See also Instruments
cardiac anoxia as factor determining occurrence of experimental viral carditis, 103
method of decalcifying bone for histologic section, 92
- Appendix;** rare anomaly of vermiform appendix; mucous lining of external surface, 578
- Appointments,** 305, 560
- Arms:** See Military Medicine
- Arons, W. L.:** Adenocanthoma of esophagus; report of 1 case with consideration of tumor's resemblance to so-called salivary gland tumor, 385
- Arteries:** See Aneurysm; Aorta; Arteriosclerosis; etc.
- Arteriosclerosis;** heterotopic blood formation in experimental cholesterol arteriosclerosis, 282
in infancy, 82; correction, 438
mechanism of lipophage deposition in atherosclerosis, 247
pathologic significance of ductus arteriosus; its relation to process of arteriosclerosis, 372
- Arthritis;** intra-articular changes induced in rabbits by injection of typhoid somatic antigen, 609
- Aschoff Body:** See Rheumatic Fever
- Atheroma:** See Arteriosclerosis
- Atheromatosis:** See Arteriosclerosis
- Atherosclerosis:** See Arteriosclerosis
- Atresia:** See Pylorus
- Atrophy:** See under names of organs and regions
- Avitaminosis:** See Vitamins; and under names of deficiency diseases
- Awards,** 560
- Bacteria:** See under Streptococci; Viruses; etc.
- Bagasse:** See under Pneumonoconiosis
- Baker, R. D.:** Tissue changes in fungous disease, 459
- Barker, D. E.:** Homotransplantation of fetal skin, 166
Pigment changes in experimental whole thickness skin grafts, 163
- Bennett, G. A.:** Intra-articular changes induced in rabbits by injection of typhoid somatic antigen, 609
- Bernkopf, H.:** Bovine leptospirosis; pathologic observations on experimentally infected calves, 59
- Biliary Tract:** See Liver

- Biopsy:** See Liver; etc.
- Birnbaum, J. P.:** Some factors influencing brown degeneration of adrenal gland in Swiss albino mouse, 269
- Black, W. C.:** Studies in dystrophia myotonica; autopsy observations in 5 cases, 176
- Bladder, rhabdomyosarcoma of;** report of case and review of literature, 350
- Block, M.:** Histologic aspects of skin in late stages of trench foot, 360
- Blood:** See also Leukocytes and cardiovascular system, abnormalities of, 544
- Diseases:** See Anemia
- formation, heterotopic, in experimental cholesterol arteriosclerosis,** 282
- oxygen; pathologic significance of ductus arteriosus; its relation to process of arteriosclerosis,** 372
- Blumenthal, L. S.:** Pathologic significance of ductus arteriosus; its relation to process of arteriosclerosis, 372
- Bones:** See also under names of bones
- abnormalities of skeleton and extremities,** 527
- abnormalities, postnatal developmental,** 652
- method of decalcifying bone for histologic section,** 92
- multiple myeloma; survey based on 35 cases, 18 of which came to autopsy,** 207
- BOOK REVIEWS:**
- American Illustrated Medical Dictionary: Complete Dictionary of Terms Used in Medicine, Surgery, Dentistry, Pharmacy, Chemistry, Nursing, Veterinary Science, Biology, Medical Biography, etc., with Pronunciation, Derivation and Definition; W. A. N. Dorland,** 443
- Biochemistry of Cancer; J. P. Greenstein,** 266
- Calcific Disease of Aortic Valve; H. T. Karsner and S. Koletsky,** 668
- Cancer: Diagnosis, Treatment and Prognosis; L. V. Ackerman and J. A. del Regato,** 440
- Chemical Carcinogenesis; A. Haddow and others,** 324
- Colloid Science: Symposium,** 668
- Diseases of Chest, with Emphasis on X-Ray Diagnosis; E. H. Rubin,** 102
- Encyclopedia of Endocrinology; H. Selye,** 561
- Granulomatosi fungine dell'uomo nelle regioni tropicali e subtropicali; P. Redaelli and R. Ciferri,** 561
- Gynecology, with a Section on Female Urology; L. R. Wharton,** 101
- Handbook for Diagnosis of Cancer of Uterus by Use of Vaginal Smears; O. Gates and S. Warren,** 439
- Hyperinsulinie: Les états de suractivité fonctionnelle du pancréas endocrine en médecine expérimentale et en clinique; Marcel Sendrail,** 668
- Memoranda on Medical Diseases in Tropical and Sub-Tropical Areas,** 102
- Pathology of Traumatic Injury: General Review; J. V. Wilson,** 101
- Problème du cancer et son évolution récente (cancer et neuroergonomie); M. Mosinger,** 443
- Radical Surgery in Advanced Abdominal Cancer; A. Brunswick,** 101
- Recent Advances in Endocrinology; A. T. Cameron,** 324
- Surgical Pathology; W. Boyd,** 101
- Books received,** 101, 206, 324, 439, 561, 668
- Bouillaud's Disease:** See Rheumatic Fever
- Brain:** See also Meninges; Nervous System; etc.
- myelencephalic blebs in mice,** 556
- Breast; leiomyoma of female breast,** 314
- Bright's Disease:** See Nephritis
- Bueno, P.:** Reticuloendothelial cells reacting to toxic antigens and to infection, 635
- Burnett, H. A.:** Perforation of stomach of newborn infant with pyloric atresia, 318
- Calcification; parathyroid adenoma with generalized metastatic calcification,** 628
- Caldwell, J. D.:** Preinvasive carcinoma of cervix uteri; 7 cases in which it was detected by examination of routine endocervical smears, 571
- Cancer:** See also Adenocarcinoma; Sarcoma; Tumors; and under names of organs and regions
- developmental aspects of,** 660
- mixed squamous cell carcinoma and papillary adenocarcinoma (adenocanthoma) of thyroid gland,** 192
- professorship,** 323
- ultraspectrophotometric studies of extracts of normal and of tumor tissue of human origin,** 307
- Carbon Dioxide; changes in concentration of oxygen and carbon dioxide; causes of maldevelopment,** 429
- Carbowax:** See Ethylene Glycol
- Carbuncle, Renal:** See Nephritis
- Carcinoma:** See Cancer
- Cardiovascular System:** See also Heart and blood, abnormalities of, 544
- Carotid Body; simultaneous chromaffin tumors of carotid body and glomus jugularis;** 113
- tumor of carotid body type arising in middle ear,** 78
- Carsten, M. E.:** Rapid procedure for embedding of eyes, 96
- Castellnuovo, G.:** Toxicity of "atilbamidine"; study of effects of chronic intoxication, 287
- Cattle; bovine leptospirosis; pathologic observations on experimentally infected calves,** 59
- Cavallero, C.:** Nucleolar substance in anterior lobe of human pituitary gland, 639
- Cavelli, P.:** Pathogenesis of glomerulonephritis and rheumatic fever; in vivo activation of tissue antigens as result of streptococcal infection and consecutive formation of autoantibodies, 119
- Studies on pathogenesis of rheumatic fever; cardiac lesions produced in rats by means of autoantibodies to heart and connective tissue,** 13
- Studies on pathogenesis of rheumatic fever; experimental production of autoantibodies to heart, skeletal muscle and connective tissue,** 1
- Cells:** See also Tissue
- distribution of parietal cells in gastric disease,** 261
- inclusion disease of infancy,** 467
- nucleolar substance in anterior lobe of human pituitary gland,** 639
- Cerebellum; primary melanoblastoma of cerebellar leptomeninges with widespread extracranial metastases; report of case,** 477
- Cerebrum:** See Brain
- Cervix:** See Uterus
- Chemistry, causes of maldevelopment (chemical influences),** 417
- Chemotherapy:** See under names of diseases and chemotherapeutic agents
- Children:** See Infants

- Cholesterol: See also Lipoids
correlations of biochemical and histologic changes in adrenal cortex, 126
heterotopic blood formation in experimental cholesterol arteriosclerosis, 282
some factors influencing brown degeneration of adrenal gland in Swiss albino mouse, 269
- Chromaffin Tumors: See Tumors
- Circulatory System: See Cardiovascular System; Heart
- Cold: See Temperature
- Communicable Diseases: See Immunity; Syphilis; etc.
- Congress: See Societies
- Coronary Vessels: gumma of coronary artery, myocardial infarction and gumma of heart, 490
sensory nerves of human heart, 325
- Craig, J. M.: Leiomyoma of female breast, 314
- Creper fowl, 554
- Cyclopa; median defects, 505
- Cysts: See under names of organs and regions
- Cytology: See Cells
- Dale, E. H.: Primary ovarian pregnancy, 87
- Decalcification: See under Bones
- Deformities: See Abnormalities and Deformities
- Degeneration: some factors influencing brown degeneration of adrenal gland in Swiss albino mouse, 269
- De Mylder, C. G.: Neurogenesis observed in mixed Grawitz-Wilms tumor, 451
- Development, abnormal, mechanisms of: causes of abnormal development in embryo, 398
abnormal, mechanisms of: embryonic development of malformations, 495
abnormal, mechanisms of: postnatal developmental abnormalities, 648
- Diamidinostilbene: See Amidines
- Dick, H. J.: Staining technic for diagnostic tissue spreads, 396
- Digestive System: See also Stomach
abnormalities of, 523
- Dresbach, M.: Modification of Mayer's mucicarmine stain for mucin, 391
- Ductus Arteriosus, pathologic significance of: its relation to process of arteriosclerosis, 372
- Duodenum, Ulcer: See Peptic Ulcer
- Dyes: See Stains and Staining
- Dystrophy, muscular; studies in dystrophia myotonica; autopsy observations in 5 cases, 176
- Ear, middle, tumor of carotid body type arising in, 78
- Edema: See under names of organs and regions
- Education, careers in academic medicine, 437
- Electrocardiogram: See under Heart
- Electrolytes; method of decalcifying bone for histologic section, 92
- Embryology: See also Fetus; Monsters; etc.
mechanisms of abnormal development; causes of abnormal development in embryo, 398
mechanisms of abnormal development; embryonic development of malformations, 495
- Endocardium: See Heart
- Environment; environmental causes of maldevelopment, 412
- Epidermis: See Skin
- Esophagus, adenocarcinoma of: report of 1 case with consideration of tumor's resemblance to so-called salivary gland tumor, 385
- Estrogens; some factors influencing brown degeneration of adrenal gland in Swiss albino mouse, 269
- Ethylene Glycol; rapid procedure for embedding of eyes, 96
- Extremities; abnormalities of skeleton and extremities, 527
- Exudates and Transudates; staining technic for diagnostic tissue spreads, 396
- Eyes, abnormalities of, 517
Eye Foundation, 323
rapid procedure for embedding of, 96
- Face, clefts of, 546
- Fat: See also Lipoids
focal anemia, leukocytosis and fatty infiltration of liver (so-called septic liver spots), 336
some factors influencing brown degeneration of adrenal gland in Swiss albino mouse, 269
- Favata, B. V.: Fibrinogen-thrombin clot useful in tissue culture, 321
- Fellowships, research, 323
- Fetus: See also Embryology; Monsters; Pregnancy; etc.
homotransplantation of fetal skin, 166
- Fever: See Typhoid; etc.
- Undulant: See Undulant Fever
- Fibrinogen-thrombin clot useful in tissue culture, 321
- Fibroblasts: See Tissue
- Fibrocartilage, traumatic proliferations of fibrocartilage with ossification in genesis of spondylitis deformans and myositis ossificans, 445
- Fibrosis: See Uterus
- Finland, M.: Primary atypical pneumonia; report of 8 cases with autopsies, 581
- Fusospirochetosis: See Spirochetosis
- Fluids; staining technic for diagnostic tissue spreads, 396
- Foot, histologic aspects of skin in late stages of trench foot, 360
- Freezing: See Refrigeration
- Fungi; tissue changes in fungous disease, 459
- Gastric Ulcer: See Peptic Ulcer
- Gelfand, M.: Method of decalcifying bone for histologic section, 92
- Genesis; genetic causes of maldevelopment, 403
- Genitourinary Tract, abnormalities of, 535
- Gerontology: See Old Age
- Gerstl, B.: Pathogenicity of bagasse, 343
- Glomerulonephritis: See Nephritis, glomerular
- Glomus Jugularis: See Neck
- Gonads: See Hermaphroditism; Ovary
- Gordon, I.: Mechanism of lipophage deposition in atherosclerosis, 247
- Grafts: See Skin
- Grawitz-Wilms Tumor: See Kidneys
- Growth: See also Embryology
relationship of growth and nutrition to cardiorenal changes induced in birds by high salt intake, 143
- Gruenwald, P.: Mechanisms of abnormal development; causes of abnormal development in embryo, 398
Mechanisms of abnormal development; embryonic development of malformations, 495
Mechanisms of abnormal development; postnatal developmental abnormalities, 648
- Gumma: See Coronary Vessels; Heart
- Hair growth in skin of guinea pigs painted with 20-methylcholanthrene, 297
pigment changes in experimental whole thickness skin grafts, 163

- Halpert, B.:** Parathyroid adenoma with generalized metastatic calcification, 628
 Perforation of stomach of newborn infant with pyloric atresia, 318
- Hand:** analysis of cases of radial hemimelia, 28
- Hause, W. A.:** Arteriosclerosis in infancy, 82; correction, 438
- Heart:** See also Cardiovascular System; Coronary Vessels
 abnormalities; common trunk of pulmonary veins tributary to the portal vein, with multiple cardiac anomaly, 169
 cardiac anoxia as factor determining occurrence of experimental viral carditis, 103
 gumma of coronary artery, myocardial infarction and gumma of heart, 490
 primary neoplasms of, 198
 relationship of growth and nutrition to cardiorenal changes induced in birds by high salt intake, 143
 sensory nerves of human heart, 325
 studies on pathogenesis of rheumatic fever; cardiac lesions produced in rats by means of autoantibodies to heart and connective tissue, 13
 studies on pathogenesis of rheumatic fever; experimental production of autoantibodies to heart, skeletal muscle and connective tissue, 1
- Heat:** See Temperature
- Heino, H. E.:** Relationship of growth and nutrition to cardiorenal changes induced in birds by high salt intake, 143
- Hematology:** See Blood
- Hemimelia:** See Radius
- Hemopoiesis:** See Blood formation
- Hermaphroditism and Intersexuality,** 538
- Herrera, G.:** New method for biopsy of liver, 393
- Herrick, J. B.:** George Howitt Weaver, 665
- Hesse, F. E.:** Pathologic aspects of leiomyosarcoma of stomach, 138
- Hill, J. M.:** Method of decalcifying bone for histologic section, 92
- Hirsch, E. F.:** Sensory nerves of human heart, 325
 Traumatic proliferations of fibrocartilage with ossification in genesis of spondylitis deformans and myositis ossificans, 445
- Homotransplantation:** See Skin
- Hormones:** See Adrenal Preparations; Estrogens; etc.
- Hyaluronidase:** limitation of spreading factor in injured rats, 356
- Hydrocarbons:** See Methylcholanthrene
- Hypernephroma,** neurogenesis observed in mixed Grawitz-Wilms tumor, 451
- Hypophysis:** See Pituitary Body
- Immunity:** See Antigens and Antibodies; Schwartzman Phenomenon; etc.
- Inclusion Bodies:** See Cells
- Infants:** See also Newborn Infants
 arteriosclerosis in, 82; correction, 438
 inclusion diseases of infancy, 467
 Newborn: See Newborn Infants
- Infarction:** See Heart
- Infection:** See Viruses; Wounds; and under names of bacteria, as Streptococci; etc.
 causes of maldevelopment, 431
 effects on postnatal developmental abnormalities, 659
 reticuloendothelial cells reacting to toxic antigens and to infection, 635
- Infectious Diseases:** See Infection; Typhoid; etc.
- Inflammation;** causes of maldevelopment, 431
- Injuries:** See Trauma; and under names of organs and regions
- Ink,** limitation of spreading factor in injured rats, 356
- Instruments:** See also Apparatus
 new method for biopsy of liver, 393
- Intersexuality:** See Hermaphroditism
- Intestines, Ulcers:** See Peptic Ulcer
- Irradiation:** See Radiations; and under names of diseases and organs
- Jaffe, H. L.:** Multiple myeloma; survey based on 35 cases, 18 of which came to autopsy, 207
- Joints:** See also under names of joints
 intra-articular changes induced in rabbits by injection of typhoid somatic antigen, 609
- Jolliffe, L. S.:** Primary atypical pneumonia; report of 8 cases with autopsies, 581
- Jurisprudence, Medical;** medicolegal conference and seminar, 205
- Kahler, J. E.:** Fibrosis uteri, 621
- Kalfayan, B.:** Inclusion disease of infancy, 467
- Kidneys,** bovine leptospirosis; pathologic observations on experimentally infected calves, 59
 Diseases: See also Nephritis
 diseases, polycystic; review, 34
 neurogenesis observed in mixed Grawitz-Wilms tumor, 451
 relationship of growth and nutrition to cardiorenal changes induced in birds by high salt intake, 143
 significant renal changes in cases of multiple myeloma, 228
 toxicity of "stilbamidine"; study of effects of chronic intoxication, 287
- Kipkie, G. F.:** Simultaneous chromaffin tumors of carotid body and glomus jugularis, 113
- Klinge-Aschoff Nodule:** See Rheumatic Fever
- Knee:** intra-articular changes induced in rabbits by injection of typhoid somatic antigen, 609
- Kobernick, S. D.:** Gumma of coronary artery, myocardial infarction and gumma of heart, 490
- Krakower, C. A.:** Relationship of growth and nutrition to cardiorenal changes induced in birds by high salt intake, 143
- Kretschmer, H. L.:** Rhabdomyosarcoma of bladder; report of case and review of literature, 350
- Lambert, P. P.:** Polycystic disease of kidney; review, 34
- Lange, G.:** Cardiac anoxia as factor determining occurrence of experimental viral carditis, 103
- Lasker Foundation,** 560
- Lathrop, F. D.:** Tumor of carotid body type arising in middle ear, 78
- Leach, W. B.:** Primary neoplasms of heart, 198
- LeCompte, P. M.:** Tumor of carotid body type arising in middle ear, 78
- Leiomyoma of female breast,** 314
- Leiomyosarcoma of stomach;** pathologic aspects, 138
- Leptomeninges:** See Meninges
- Leptospirosis,** bovine; pathologic observations on experimentally infected calves, 59
- Leukocytes, count:** focal anemia, leukocytosis and fatty infiltration of liver (so-called septic liver spots), 336
- Leukocytosis:** See Leukocytes, count
- Lichtenstein, L.:** Multiple myeloma; survey based on 35 cases, 18 of which came to autopsy, 207
- Light:** See also Radiations; Ultraviolet Rays
 improved method for handling photolabile liquids, 646
- Lipids:** See Lipoids

- Lipoids:** See also Cholesterol; Fat; etc.
correlations of biochemical and histologic changes in adrenal cortex, 126
mechanism of lipophage deposition in atherosclerosis, 247
- Lipomatosis:** See Degeneration, fatty
- Lipophage:** See Lipoids
- Liquids,** improved method for handling photolabile liquids, 646
- Liver;** bovine leptospirosis; pathologic observations on experimentally infected calves, 59
focal anemia, leukocytosis and fatty infiltration of liver (so-called septic liver spots), 336
new method for biopsy of, 393
pathologic aspects of leiomyosarcoma of stomach, 138
quantitative estimation of fibrous tissue in pathologic livers, 563
reticuloendothelial cells reacting to toxic antigens and to infection, 635
toxicity of "stilbamidine"; study of effects of chronic intoxication, 287
- Lymph Nodes;** reticuloendothelial cells reacting to toxic antigens and to infection, 635
- Lymphatic System:** See also Lymph Nodes
limitation of spreading factor in injured rats, 356
- McKenzie, H. F.:** Cystic medionecrosis of aorta, 485
- McNeill, C.:** Pathologic aspects of leiomyosarcoma of stomach, 138
- McPeak, E.:** Adenocarcinoma of esophagus; report of 1 case with consideration of tumor's resemblance to so-called salivary gland tumor, 385
- Magner, D.:** Cystic medionecrosis of aorta, 485
- Malformations:** See Abnormalities and Deformities; and under names of organs and regions
- Mainnutrition:** See under Nutrition
- Mammary Gland:** See Breast
- Marinero, N. A.:** Pathogenicity of bagasse, 343
- Mayer's Mucicarmine Stain:** See Stains and Staining
- Medical Jurisprudence:** See Jurisprudence, Medical
- Medical Societies:** See Societies
- Medicine, academic, careers in,** 437
- Military:** See Military Medicine
- Medionecrosis:** See Aorta
- Melsaner, W. A.:** Distribution of parietal cells in gastric disease, 261
- Melanin;** primary melanoblastoma of cerebellar leptomeninges with widespread extracranial metastases; report of case, 477
- Melanoblastoma, primary, of cerebellar leptomeninges with widespread extracranial metastases;** report of case, 477
- Meninges;** primary melanoblastoma of cerebellar leptomeninges with widespread extracranial metastases; report of case, 477
- Menstruation;** fibrosis uteri, 621
- Mesothelioma, primary, of pericardium,** 380
- Methylcholanthrene;** hair growth in skin of guinea pigs painted with 20-methylcholanthrene, 297
- Microorganisms:** See Fungi; etc.
- Military Medicine;** histologic aspects of skin in late stages of trench foot, 360
- Molds:** See Fungi
- Monsters, double, and twins,** 500
- Morgan, H. R.:** Intra-articular changes induced in rabbits by injection of typhoid somatic antigen, 609
- Mucicarmine:** See Stains and Staining
- Mucin, modification of Mayer's mucicarmine stain for,** 391
- Mucous Membrane;** rare anomaly of vermiform appendix; mucous lining of external surface, 578
- Muscles, Dystrophy:** See Dystrophy, muscular
- postnatal developmental abnormalities,** 652
- studies on pathogenesis of rheumatic fever;** experimental production of autoantibodies to heart, skeletal muscle and connective tissue, 1
- Myeloma, multiple, amyloidosis in relation to,** 231
multiple, significant renal changes in cases of, 228
multiple; survey based on 35 cases, 18 of which came to autopsy, 207
relationship of apparently solitary myeloma and multiple myeloma, 233
- Myocardium:** See Heart
- Myositis ossificans;** traumatic proliferations of fibrocartilage with ossification in genesis of spondylitis deformans and myositis ossificans, 445
- Neck;** simultaneous chromaffin tumors of carotid body and glomus jugularis, 113
- Necrosis:** See Aorta
- Neoplasms:** See Cancer; Sarcoma; Tumors
- Nephritis, glomerular;** pathogenesis of glomerulonephritis and rheumatic fever; in vivo activation of tissue antigens as result of streptococcal infection and consecutive formation of autoantibodies, 119
- Nephrons:** See under Kidneys; Nephritis
- Nephrosis:** See Kidneys, diseases; Nephritis
- Nerves:** See also Nervous System
neurogenesis observed in mixed Grawitz-Wilms tumor, 451
sensory, of human heart, 325
- Nervous System:** See also Brain; Nerves; etc.
central, abnormalities of, 512
postnatal developmental abnormalities, 650
- Nettles, J. B.:** Preinvasive carcinoma of cervix uteri; 7 cases in which it was detected by examination of routine endocervical smears, 571
- Neutrophils:** See Leukocytes
- Newborn Infants:** See also Infants
mechanisms of abnormal development; postnatal developmental abnormalities, 648
perforation of stomach with pyloric atresia, 318
polycystic disease of kidney; review, 34
- Nichols, J.:** Improved method for handling photolabile liquids, 646
- Nieburgs, H. E.:** Preinvasive carcinoma of cervix uteri; 7 cases in which it was detected by examination of routine endocervical smears, 571
- Nipple:** See Breast
- Nobel prize in medicine,** 560
- Nodes:** See Rheumatic Fever
- Nomenclature;** focal anemia, leukocytosis and fatty infiltration of liver (so-called septic liver spots), 336
- Nutrition:** See also Dystrophy; Vitamins
deficiencies, causes of maldevelopment, 426
- Obituaries:**
Fenton, Clement C., 205
Weaver, George Howitt, 665
- Old Age;** medullary hyperplasia of adrenal gland in aged Wistar albino and gray Norway rats, 71
- O'Rahilly, R.:** Analysis of cases of radial hemimelia, 28
- Orme, J. F.:** Sensory nerves of human heart, 325

- Ossification; traumatic proliferations of fibrocartilage with ossification in genesis of spondylitis deformans and myositis ossificans, 445
- Osteogenesis: See Bones, growth
- Ovary: See also Uterus
primary ovarian pregnancy, 87
- Oxygen; changes in concentration of oxygen and carbon dioxide; causes of maldevelopment, 429
deficiency; cardiac anoxia as factor determining occurrence of experimental viral carditis, 103
- Pain: See also Sensation
sensory nerves of human heart, 325
- Parathyroid, adenoma with generalized metastatic calcification, 628
- Pardo, V.: New method for biopsy of liver, 393
- Parker, F., Jr.: Primary atypical pneumonia; report of 8 cases with autopsies, 581
- Pathology, examination for certification in, 205
- Pearce, J. M.: Cardiac anoxia as factor determining occurrence of experimental viral carditis, 103
- Peptic Ulcer; distribution of parietal cells in gastric disease, 261
- Pericardium, primary mesothelioma of, 380
- Photosensitization: See under Light
- Pigmentation: See also Melanin
pigment changes in experimental whole thickness skin grafts, 163
some factors influencing brown degeneration of adrenal gland in Swiss albino mouse, 269
- Pituitary Body; nucleolar substance in anterior lobe of human pituitary gland, 639
- Plasma: See Blood
- Pneumonia, primary atypical; report of 8 cases with autopsies, 581
- Pneumonoconiosis; pathogenicity of bagasse, 343
- Poisons and Poisoning: See under names of specific substances
- Polyethylene Glycol: See Ethylene Glycol
- Polymyositis: See Myositis
- Portal Vein; common trunk of pulmonary veins tributary to portal vein with multiple cardiac anomaly, 169
- Pregnancy, heterospecific, effects of, 557
maternal infections and congenital malformations, 437
nucleolar substance in anterior lobe of human pituitary gland, 639
primary ovarian pregnancy, 87
- Prizes: See Awards
- Pund, E. R.: Preinvasive carcinoma of cervix uteri; 7 cases in which it was detected by examination of routine endocervical smears, 571
- Pylorus; perforation of stomach of newborn infant with pyloric atresia, 318
- Radiations: See also Ultraviolet Rays; and under names of various diseases
causes of maldevelopment, 415
- Radius; analysis of cases of radial hemimelia, 28
- Ravin, A.: Studies in dystrophia myotonica; autopsy observations in 5 cases, 176
- Reals, W. J.: Primary mesothelioma of pericardium, 380
- Research fellowships, 323
- Respiratory Tract, abnormalities of, 523
- Reticuloendothelial System: See also Liver; Spleen; etc.
reticuloendothelial cells reacting to toxic antigens and to infection, 635
- Reticulum: See Reticuloendothelial System
- Rhabdomyoma; primary neoplasms of heart, 198
